Dear Professor Xiaoping Guo,

**A letter of invitation to visit the Centre for Mined Land Rehabilitation in
The University of Queensland, Australia, in March 09-13, 2020**

From our communication and discussion, I would like to invite you to visit the Centre for Mined Land Rehabilitation (CMLR), The University of Queensland (UQ), Brisbane, Australia. The Centre is one of the six centres within Sustainable Minerals Institute in UQ, which is one of the top research institute in the world, specialised in mining and mining environmental technology and management.

The purpose of this visit is to provide the opportunity to discuss with academic researchers and industry practitioners in the area of mined land rehabilitation and to gain first hand exposure to mined sites undergoing rehabilitation under the regulatory requirements of Australian federal and state governments. We will do our best endeavour to plan your visit to mine sites for facilitating your field site activity.

It is understood that all expenditure during the visit will be borne by the employers of the delegates, such as international travel, local transport (including local transport to field sites), accommodation and medical insurance.

We are very much looking forward to welcoming you and your group to the CMLR and The University of Queensland and if there is any further information required please do not hesitate to contact me.

Yours sincerely,

Longbin Huang
Professor | Principal Research Fellow | Program Leader

PS: the name list of the delegate and their itinerary have been attached in the following page

1. The detail of delegate

Name	Gender	Employer	Title
Xiaoping Guo	M	College of Soil and Water Conservation Beijing Forestry University	Professor
