Dear Professor Li Xiong

INVITATION TO ATTEND IFLA'S WORLD COUNCIL MEETING

The International Federation of Landscape Architects represents the profession of landscape architects globally. As part of our activities, delegates from each of IFLA's 77 member associations meet annually to discuss matters of importance to our profession. This meeting of the IFLA World Council is attended by delegates representing their associations and countries, and is the decision-making forum which guides IFLA's activities.

It is with pleasure that we invite you to attend World Council meeting as the official delegate of the Chinese Society of Landscape Architects. CHSLA is formally recognised by IFLA as the association representing landscape architects in China. The IFLA World Council meeting will be held virtually by webinar on 25th ~26th September 2020. IFLA looks forward to your attendance and participation.

With very best wishes,

James Hayter | IFLA President
