

再见·北林

SAY GOOD BYE

BFU·2016

再见·北林

回首北林，难说再见。

又是一年6月，毕业季，校园时光不知不觉已到尽头，记忆中留下了太多的片段，有太多不舍，留恋的东西。

毕业与成长两个词总是相连。如果有那么一刻回首时发现，在北京林业大学的过往可以让你心怀感激，而毕业的结果又是长久以来的期望。那么，也许，这就是最美好的时光。此刻，我们即将告别，不想说毕业散场，因为人生新的篇章正在从这里拉开帷幕。

难说再见。

永远不忘转身瞬间！海阔天空在明天！

北林，再见

The first time I came to China, it was a new environment for me. Now I've already spent 5 years in China and already got used to the environment.

Over the years studying in China, I acknowledged about Chinese culture, Chinese people and lifestyle. I learned so many things and whenever I had difficulties, my classmates and teachers were always willing to help me. I really enjoyed my time staying in China and BFU.

see you BFU

我来自萨摩亚，在2012年来到林业大学的时候，我得到了我的中文名字——发达，在中国这个名字被赋予了很有趣的意义。

离开家乡来到中国，是我人生中第一次最远的长征。来到中国后，环顾四周举目无亲，就在这个时候，我来到了命中注定的学校——BFU。在这期间，我得到了来自同学，老师尤其是留学生办公室的很多帮助，让我更加深刻的理解到，这里将是我接下来几年的家。

有件事我终生难以忘怀，我绝大多数大学时光都住着单人间，这让我有条件在白天邀请我的朋友们来做客，让我的寝室更像一个家。因为我的老家气候四季如春，来到这样一个每年有三分之一时间寒冷的城市，让我用了长时间来克服。在北京的日子里，学校和教堂极大的陶冶了我的情操，我在这里学会的弹吉他演唱，我的青春让我自豪。时间如“白驹过隙”，辗转四年，是时候说再见了，但是我的心无法说出再见，我如此的热爱中国，如此的眷恋我的母校。

My studying and life in Beijing Forestry University has been a very wonderful and memorable experience. Despite having a few difficulties in the first year due to the little knowledge of the Chinese language I had, I later on managed to fit into the school environment. All this was made easy with the help of a very hard working and caring staff from both the International Office and my department. My friends in BFU also played an important role as they were the closest I had to family through out the four years. I would like to thank the Chinese scholarship council for the privilege of being able to study in BFU and to the international office and the Department of Economics and Management for their profound guidance throughout my study. I would also want to thank my supervisor professor Zhou Jian Hua for the guidance and advice I received. The BFU family is a family I will forever look forward to coming back to in the near future.

Here goes my impression of Beijing Forestry University. In life, it is said that our journeys have been fated, be it good or bad. Fortunately for me, I can proudly and boldly say it out loud today that I have had an awesome time being a student of BJFU. The teachers are so understanding, the international students office staffs are always there to help students whenever we need help, they arrange meetings in order to remind us and guide us on safety measures and ways to improve our lifestyle on campus, the Ayl in my dormitory is so helpful, the locals I met when I arrived to the school are friendly and willing to assist in any way they can and most especially, the school environment is really welcoming, clean and relaxing for me being a foreign student in China.

During my first year, as expected, communication was a very huge problem, but with the professionalism of our teachers and the help of my Chinese friends, communication soon became easier and life got better. I never expected to learn and adapt so fast with my new environment but after a full school session of rigorous studies, extra Chinese classes and lone time studies on my own, I soon conquered my language barrier problems and started enjoying the Chinese culture, Chinese local delicacies and the large number of tourist attractions around me.

I have learnt that to excel in Beijing Forestry University, most especially in the School Of Landscape that I enrolled with, you need to stay focused, you need to put in a lot of work as a student and this I believe is the reason why most students from BJFU often comes out in flying colors. So I immediately adjusted to the educational system and I didn't allow myself to be distracted by the luxurious lifestyles and adventures around me, I studied really hard to earn my grades and I am very happy today that I made it. As mentioned earlier, the professionalism of our teachers really stood out for me and I consider myself very lucky to have been a student of this great University.

That said, as a student of BJFU, we have had the opportunity to participate in many great fun filled school organized trips around the country that has left every student with mouth opening experiences and very beautiful memories. To mention few, I mostly enjoyed our 10 days practical tour to ZHANGJIAJIE where we learnt more about tourism management, tourism attractions and travel guide. It was an amazing time for me and I had the chance to visit one of the mountains that inspired a big Hollywood movie titled "Avatar". I have included a picture of our trip to the mountains in Zhangjiajie to show how much I enjoyed the school trip to the place.

If permitted, I could go on and on about my impression of BJFU, about how exciting my stay was, about how high standard the University is, about how effective the teachers are and about how dedicated you have to be in order to excel in this great institution. In conclusion, My impression of BJFU is really great and the school will be missed. I have had beautiful memories that will linger on forever, I have met many great people, both locals and other nationalities. I am really proud to have finished from BJFU and I hope the University never loses its standards.

Thank you BJFU for a wonderful academic time.

I want to give a heartfelt thanks to the government of the people's republic of china and the Beijing Forestry University for accepting me and welcoming as a student. It has been an amazing journey, not just the studying aspect, but life in general. In the beginning, it was the hardest thing I have ever done, but as my results can, show over time there was steady improvement.

I must give accreditation to the wonderful lectures at BFU who help me so well over the years to understand concepts despite the obvious language barrier. From the perspective of an international students; new students are in a new culture in a new world and in addition, the language struggles. More should be done to guide and usher such students to get used to the newness. I strongly suggest core subject such as math, physics statistics, which are normally very challenging and taken in the first when students still have not grasp the language, the students should sit these class together with a specialized teacher.

I am sure the international students office can identify the fact that most the students who are close to the end of the study still have to retake such classes from year one.

Beijing Forestry University (BFU).... I came to BFU with lots of anxieties and worries, but now, I will leave BFU with a thousand of wonderful memories. There is one of those moments that everybody feels at the time they arrive at a new place, a special place where someone will live for several years, a sensation of discovery new aspects, characteristics, secret places and crowded places. Those feelings and sensations described me at the time I arrived back in September 2014, at that moment my first words described my thoughts, nerves and impatient of being at a new place for me. Even though at the time I arrived at BFU, bad and good impressions and sensations were passing through my feelings and thoughts. The impressions that my mind was having represented the emotion of having new friends and eagerness to learn new things. Starting a new life in a different environment that I used to live really taught me the real meaning of survival. Throughout my two years of study period in BFU, I had the opportunities to experience so many good things that I had never imagine before, starting in BFU. Learn a new language, making new foreign and Chinese friends, eat varieties of delicious foods (especially Chinese foods), participate in many exciting programs and activities and tour around to numerous remarkable places in Beijing. All these experiences have been provided by the BFU for my friends and me throughout our two years of study period. The worries and difficulties that I faced at the beginning of my study here were totally gone with the ongoing help and supports from all my teachers and friends in BFU. Thanks a lot guys. You' re all such amazing persons! Thank you BFU for every single remarkable memory and experience that you gave to me. Till we meet again someday. Goodbye! Zaijian! Selamat Tinggal!

"When I started at Beijing Forestry University (BFU), I was a little disoriented-adjusting to graduate school in a completely new environment was difficult-and didn't really know what to expect. However, I was not alone because there were other international students starting with me. I was able to work closely with my supervisor, graduate office and international student office. I should not forget Chinese students who were very supportive in nature. As my course "Forest Economic and Management" was English taught program, I did not feel any problem in language like other international students. But, it was little hard due to my forestry background. As a student it's normal and I enjoyed the course which let me learn the new ideas in modern forestry with economic window. I am also so happy that I had an opportunity to live in Beijing; it is really a wonderful city! Overall, I am confident that the academic knowledge I received at BFU has put me in an excellent position to pursue a career in the field of forestry."

After almost two years of pursuing my master degree at BFU, I have learned a lot not only from my formal classes but also from my friends. It was a chance to learn new knowledge, experiences and incredible Chinese culture and language.

BFU offered a nice and happy learning environment for students with a lot of sports and extra curricular activities. Students, staff, and professors are always eager to help whenever necessary. Experiences in BFU are sweet and unforgettable memories for me. Thanks APFNets and Thanks BFU.

see you

After about two year study period, I have learned a lot in Beijing Forestry University. When I just arrive to China, I started to face cultural shock like the problems in communicating, traveling, food etc. As a compulsory course, we have to learn Chinese language and Chinese culture, and Chinese characters are really to be impressive and it is too difficult to write and remember. Because of the adorable and friendly teachers and professors, it was a big chance to me for learning Chinese language and culture in native country and I got many Chinese friends in our university. I also got the chance to travel to my very impressive places of china, the Great Wall, and Tiananmen Square, one of the tourist sites in Beijing arranged by the University. The people in China are very friendly; I am still feeling with shock for their hospitality. To be honest, I have long been interested in the educational system of China. By studying In Beijing Forestry University, I have some chats with local students here and share the way they are learning and what they do at leisure. The University provides the very good facilities to the local and international students for studying. My first impression to my University is very clean and well planned infrastructures for studying, teaching and accommodations for students. Moreover, lush of greenery and vibrant colored flowers and trees sum up the University as an eco-friendly institute. At the expense of favorable surroundings, students can enjoy their studies comfortably in cool air-conditioned and brightly illuminated rooms, well-equipped with high caliber projectors. The food canteens are as good as I expect and I could stay all day reading in the library, a fantastic resource. I am very proud to be one of BJFU graduate students as it prioritizes education and discipline. Courses which we have been learning in Beijing Forestry University, all are the applied sciences and I strongly believe that theses exactly help to utilize them in our current carrier and support to our future higher study.

I would like to express my greatest thankfulness to the committee of my master program, especially, The Asia-Pacific Network for Sustainable forest Management and Rehabilitation (APFNet), to give me the full scholarship to study master degree at Beijing Forestry University.

My impression of Beijing Forestry University was a wonderful experience that I will remember good memories forever in my life. It is one of the best University and everyone would be happy and proud to study here. Campus of the University is very beautiful and clean with a lot of tree species and well tended landscaped walkway and seasonal flowers. There are a lot of very nice people that attend the school and work in the administration, especially in the international student office. The people in the international student office do their best to make sure that every students need and that they have everything they need, therefore, it's a big responsibility to take care of all international students. I always moving with different activities with Chinese friends in there, especially, Chinese new year, Chinese culture, Volleyball games, is the best that ever experienced. Even the canteens have a good sanitary surrounding and the foods are diversified and healthy. Chinese language class is very enjoyable place where I can learn and speak Chinese with Chinese friends and some students from different countries in a familiar way. I glad to see the University is getting more popularized in the global education system with high honor among the international student. I happy to express my deepest gratitude to all of professor and teacher for taking good care during the study. I also thank the student of BFU to give me friendly and nice relationship. Hopefully we will again meet in the future and share the memories and experiences. I wish all of you the best of luck.

Sincerely

Sythud PHIMMACHANH.

SEE YOU BFU

I would like to say big thank you to Professor Zhou Jianhua, BJFU, APFNet and other BFU' s staff for opportunity and great experience while being a student and living in China. I have gained a considerable all knowledge on forest economic and other subjects that concerned forestry management system which I had never had a chance to get explicitly understanding in these fields before. Moreover, this University has introduced me to the Chinese culture as well as experience multi-culture from other international students and I believe our relationship will be continue even though we have to return to our home country. Finally, when I meet somebody that has the same interest in the subjects or in the same topic as me I would recommend he/she to enroll in this University and I am willing to share my experience and give suggestions as best I can.

I would like to express my gratitude to Chinese Government by China Scholarship Council and Comoros Government who give me a great opportunity through the Scholarship to achieve the Master degree.

The gratitude goes also to Beijing Forestry University who accepted enroll me to his Master's degree program, to the Forestry Economics and Management. My sincere gratitude goes to the International Student Office's of this University for effective management during the four years I stay in China. Also, I thank the teachers of Forestry Economics and Management college for them helps. when performing my thesis, I underwent two surgeries. To do this, I have a great appreciation to the responsables of Beijing Forestry University through the Office of International Students for their support and not to forget the medical profession of Beisan hospital (北三医院) for their professionalism. Thank you Beijing Forestry University.

我爱你林业大学。

It was a great pleasure, living and studying as a foreign student under the Chinese Government Scholarship at the Beijing Forestry University, China. Thus, my profound gratitude goes first to the Chinese Scholarship Council (CSC) for financing my studies in Beijing forestry University, China. Furthermore, Special thanks to all the staff of the foreigner Office in Beijing Forestry University for their help, hospitality and support during my fieldwork. My project has been possible through the help obtained from a diverse set of individuals during the fieldwork and thesis writing I wish to acknowledge with sincere gratitude, the guidance and advice I obtained from my supervisor Prof. Wang Lanhui and all the professor of the School of Economics and Management, Beijing Forestry University, China. I'm very happy for having my Master degree in BFU and never forget it. This is my impression of BFU. Furthermore, It was difficult in the first year with little knowledge for learning and understanding the Chinese language. Despite all, I was able to find my way around and was able to communicate with my friends after Chinese language year. The knowledge which I had acquired in the first year and the help from the international students office in BFU was very useful for me to settle down after taking my Major courses. The international student's office and the department of Economics have been of great help throughout my period of study in BFU. With the two I was able to find guidance where I was not clear. My suggestion is that the International Student Office, Chinese language teachers and the department of each foreigner student need should go beyond the limitations of the learning sector, based on an interconnection between them. So if they survey is progressively relaxed the control of improving in Chinese level and understanding the major courses for students. I think it will have more practical significance.

IMPRESSION FOR BEIJING FORESTRY UNIVERSITY

First of all I would like to thank the wonderful Lord for the grace He provides for me during this study.

I would like to thank my supervisor, Professor ZHANG LIQIU 张立秋, for having given me the opportunity to do my master's degree in his laboratory, or giving me so advises and supervises encouraged, I have served for two years a dynamic laboratory, surrounded by generous colleagues I would like to thank for their support, and the many tips for time spent in their company. My gratitude to Chinese government by China Scholarship Council and Congolese government who give me a great opportunity through the scholarship to achieve the Master degree.

This gratitude goes to Beijing Forestry University, who accepted enroll me to his Master's degree program, to the Environmental science and engineering from the college of Environmental science and engineering for full support during all the process of this thesis.

I remain very grateful to Professor SONG WEIMING, President of Beijing Forestry University who accepted me to study in Beijing Forestry University. My sincere gratitude goes to the international office staff of Beijing forestry university who are the follow teachers: Mrs Xu Lumin, Diao Yarong, Wang Jing and Director his Professor Junchang Liu for effective management during the four years I stay in Beijing.

Also, I thank all the Professors of the college of Environmental science and engineering in Beijing forestry university for their helps.

To my family, hope they can find in this work the breath to evolve more high than their elder can. Finally but importantly, I'm grateful to my parents deceased dad Ignace LUTUMBA and Lucie KISOKA, who have supported me in various ways throughout my studies.

All those who in one way or another, we have made a significant contribution, but their names are not mentioned in these lines here, I should like to express our deep gratitude. All those who in one way or another, we have made a significant contribution, but their names are not mentioned in these lines here, I should like to express our deep gratitude.

SEE YOU BFU

Beijing forestry University was a wonderful experience that I will remember for the rest of my life. In four years abroad, I know BFU is very clean and beautiful, students are young, active and always moving with different activities. My impression of BFU is really great and the school will be missed. I have had beautiful memories that will linger on forever, I have met many great people, both locals and other nationalities.

This has been a very interesting journey for me, I am happy to have taken it and go through it all.

A man with short dark hair, wearing a light blue patterned button-down shirt, is seated in front of a wooden bookshelf. He is looking directly at the camera with a slight smile. The bookshelf behind him is filled with books, a white mug, and other items. The background is slightly blurred.

BFU is a place where I learned a lot: I learned Chinese language, Chinese culture. Before I came to China I didn't know more about China but after 4 years in BFU I can say that it's possible to learn and speak Chinese language. I also came to know that it's possible to study in China and have a good and solid knowledge for both professional and academic purposes. So I want to invite those who are hesitating to make the journey that they can make the decision now. Here in China, you can study and publish in any journal in the World. If you want to study really you can come to China. I want to be grateful to all my Chinese friends, my professor (Prof. ZHANG KE BIN), to all the staff of the international student office and to my classmates, they have been a great source of inspiration for me. May God bless you all.

I am deeply impressed with BFU and I will never forget these 3 years period I spent in BFU. It was the best few years of my life. I've had many opportunities such as to educate myself, to meet new people, to learn new stuffs and to know Chinese culture overall. All of these would have been impossible if it wasn't for BFU. I am grateful from bottom of my heart to the teachers of International office, for always being kind and helpful. They were always there to help me when I face problems. Thanks for everything dear teachers, i will be forever in debt for your generous favor, and this sweet memory of BFU will always be in my heart.

see you BFU

我是来自马里的留学生森欧在北京林业大学植物学专业博士研究生，我的妻子黛罗在北京林业大学攻读心理学硕士学位。时间过得真快，我和我的妻子来到中国已经五年了，想想即将要和北京林业大学挥别，我们的心里满满的都是不舍，这里承载了我们太多的回忆。

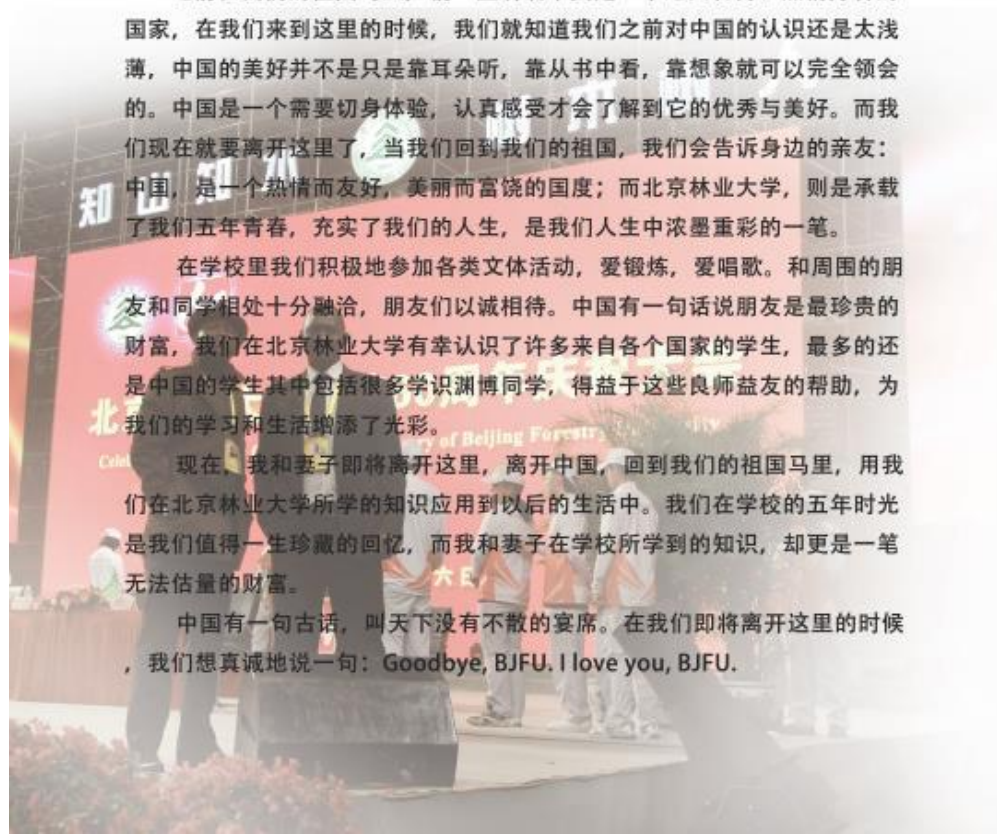

遥想五年前，我和妻子踏上了这片陌生的土地，来到了北京林业大学。但是我们的内心却从未感受到异乡的冷漠，学校的领导，老师和同学们都给予了我们无私的帮助，我们也感受到了中国的热情与温暖，留学生办公室也在我们的工作学习中为我们解决了困难，使我们在中国生活得更加舒适和便利。当初我们连简单的“你好”都说得不那么清晰，而现在的我们已经可以和周围的中国同学和老师都是使用中文进行交流。而且我还在林业大学60年校庆期间，我参加了第四届北京外国留学生汉语之星大赛，并获得了第三名的好成绩，当时我和妻子都感到特别开心。

之前在我们的祖国马里，就一直听说中国是一个地大物博、热情好客的国家，在我们来到这里的时候，我们就知道我们之前对中国的认识还是太浅薄，中国的美好并不是只是靠耳朵听，靠从书中看，靠想象就可以完全领会的。中国是一个需要切身体验，认真感受才会了解到它的优秀与美好。而我们现在就要离开这里了，当我们回到我们的祖国，我们会告诉身边的亲友：中国，是一个热情而友好，美丽而富饶的国度；而北京林业大学，则是承载了我们五年青春，充实了我们的人生，是我们人生中浓墨重彩的一笔。

在学校里我们积极地参加各类文体活动，爱锻炼，爱唱歌。和周围的朋友和同学相处十分融洽，朋友们以诚相待。中国有一句话说朋友是最珍贵的财富，我们在北京林业大学有幸认识了许多来自各个国家的学生，最多的还是中国的学生其中包括很多学识渊博同学，得益于这些良师益友的帮助，为我们的学习和生活增添了光彩。

现在，我和妻子即将离开这里，离开中国，回到我们的祖国马里，用我们在北京林业大学所学的知识应用到以后的生活中。我们在学校的五年时光是我们值得一生珍藏的回忆，而我和妻子在学校所学到的知识，却更是一笔无法估量的财富。

中国有一句古话，叫天下没有不散的宴席。在我们即将离开这里的时候，我们想真诚地说一句：Goodbye, BJFU. I love you, BJFU.

A lot of guidance and advice were needed throughout my PhD and many people at BFU were there to help in many ways. I am particularly grateful to Dr Shi Kun, my supervisor, for always trying hard to solve all my problems. As his first international student, I can imagine we were quite a challenge to work with, but with mutual understanding and patience, we made this experience a success for all! My experience in China was made special thanks to the WI CATS, our wonderful research group. I will never forget the intense work days, the fun parties and all the interesting discussions we had together. We supported each other in every moment including the stressful deadlines and the rejections, but also the many successes and celebrations. Many volunteers from BFU generously shared their time and helped to support my research by sorting through images of many wild animals. I also thank all the researchers at the School of Nature Conservation, that provided guidance, especially Dr Lei Guangchun, Dr Bao Weidong, Dr Pan Huijuan, Dr Hu Defu Dr Luan Xiaofeng and their students Shi Fanglei, Li Yang, Cai Ruibo.

I arrived at BFU in September 2010 feeling very excited but also quite nervous about the planned 4 years ahead of me. Would I settle happily into life in China? Would I make close friends? Would I survive the PhD?! Well, although I ended up extending my studies, and despite this being in many ways, the most challenging time of my life, by the end of those 5.5 years, I can now answer "yes" to all those questions! I made some wonderful friends, both students and staff, and including those in the International Student Office who have been such a support! I even met one guy at BFU who has now become my husband! I also had the most incredible experience of my life living and studying in China. I survived my PhD and I will always hold my experience at BFU close to my heart and look back with pride, and with a smile! Thank you BFU - thank you to my wonderful supervisors, teachers and friends! I miss you greatly!

I will always remember the 4 years studying at Beijing Forestry University- it was truly a life changing experience. Studying at BFU has given me the necessary tools and the opportunity to follow a career in working in Asia.

As an international graduate we now stand out with a wealth of experience working in Chinese and in some remote places of China. We were able to exchange ideas and work with many academics from across China. More then half of the snow leopard habitat is found within China and it only haves sense to study there conservation with a Chinese university. I will always remember the roller coaster experience.

时间过得真快，从最初来北京林业大学到如今快五年了，对我来说这几年生活和学习在这里许多纪念难忘。我叫潘氏瑛，来自越南国家，在材料学院攻读博士学位。五年前我带着许多憧憬和好奇来北京林业大学，并开始新的生活与环境。在这即将毕业之际，想写一些来纪念北林的五年生活。

第一年，刚来北林所有的都是陌生，一个字汉语也不会说出来使那时生活中遇到不少困难。我们从不同的国家相聚到了北林，组成了我们留学生大家庭。起初大家都很陌生，开始第一年汉语课与许多中国文化活动会让我们国际的朋友相认了。第二年经过了一年学汉语我很幸运成为材料学院的博士生，我导师是曹金珍教授。四年来，在选课，选课题，实验室工作，论文撰写等各个方面，导师给予了悉心指导和无私帮助。在学习过程中我们遇到了很多不懂的地方，留学生办公室的老师，材料学院的老师们和同学们都给很大的帮助，我心里很感动和感激。

北林风景很如画，校园有著名的银杏树大道。我最喜欢的北林就是秋色，秋色黄叶很美，引起了众多的师生。每年秋天来了，人们像节日一样兴奋彩烈聚在一起合影留念。北林建筑也很美，特别是学研楼。我刚来的时候学研的位置只是一片空地，现在就是好高大与现代的楼，造型和内部环境都非常气派，看起来很有文化气息。北林不仅风景美，而且北林的人更美，他们对外都很热情，很有气质。

最后我想说的是感谢，感谢中国留学基金委（CSC）给我这些年的奖学金，感谢留学生办公室的老师们这几年来的照顾和帮助，感谢我材料学院老师们，特别是我导师，感谢国际同学与中国同学这些年的帮助和支持。

感谢北林让我实现成功了梦想，我爱你，北林！

我是南孝旭，男，1964年生，韩国庆尚北道人。韩国国家公务员，韩国山林厅（国家林业局）工作。韩国的林业，在国际市场竞争中处于不利地位。中国目前运用的是依靠自主经营的林业经营盈利模式。因此，韩国政府公派本人，以便学习中国在林业经营模式的优秀方面。

我刚到北京林业大学的时候，我吃惊了在林业分野，有这么多专业学院、卓越的老师们、优秀的学生们。特别是看见为了实现“中国梦”和“自己的理想”，连吃饭之中也想着学习的在中国最优秀的一本大学的学生之后，我有点儿怕了，心里想怎么能跟他们竞争吗？。可是读博士过程中自然知道了，他们就是帮助我的好同学。

时辰真快了，终于达到了拿去博士学位的时刻了。对年过50岁的我来说，这个过程辛苦吗？不，这是非常愉悦的过程。我没有感觉到时间流逝，也没感到清晨已来，不知不觉间，2015年毕业典礼已到。

感谢导师宋维明教授，能做您的学生，是我一生的荣耀，我要用这一句话，代替对您的感谢之辞。您把温暖传递给来自异国他乡的我，收我为学生，还关心我的家人，让我们生活无后顾之忧。您以身作则教会我们，日积月累潜心学习，才能写出论文这一平凡的真理。

感谢刘俊昌教授、陈建成教授、温亚利教授、程宝栋教授、龙新生副教授、吴红梅副教授、侯方新副教授、付亦重副教授，王锦老师，对我如同家人，每次见面您们的笑容都给我很大的力量。

陈伟博士，你是一个心善的人，多亏你没有拒绝我，帮我找到资料，不然的话，中文不好，也不熟悉论文形式的我，可能无法取得撰写学位论文的资格。谢谢你，希望你今后做学问取得很大成就。石小亮、臧良震弟弟，我们都是经济管理学院博士研究生，曾经共同探讨学习中遇到的问题，希望你们也早日获得博士学位。感谢你们，也希望好运常伴。

特别是，来自世界各国的同学们，我是韩国山林厅（国家林业局）工作，林业通商、国际协商、国际机构的担任主任。与世界各国推进贸易协商、进出口贸易等。包括林业经营管理，对韩国林业政策、制度、行政方面都熟悉。我希望你们回国以后，继续联系和交流，是因为我们都是北京林业大学培养的人才，骄傲的我的同学。

最后，我想对我的妻子和三个儿子说，希望你们在中国的生活和在这里学到的中文，能够点亮你们的未来。

I spent most of my university life in Beijing Forestry University because I did my master and also my PhD here.

I remember my first day coming to BFU. Everything was different from where I come from. It was very difficult for me to adapt to be here because everything was challenging: weather, language, food, life style……

I was scared and nostalgic. But with time and faith, I started to appreciate life in Beijing especially in BFU. Great challenges make life interesting. It also made me grow, I am very glad for that. Beijing Forestry University gave me the opportunity to study in China. I am grateful for that.

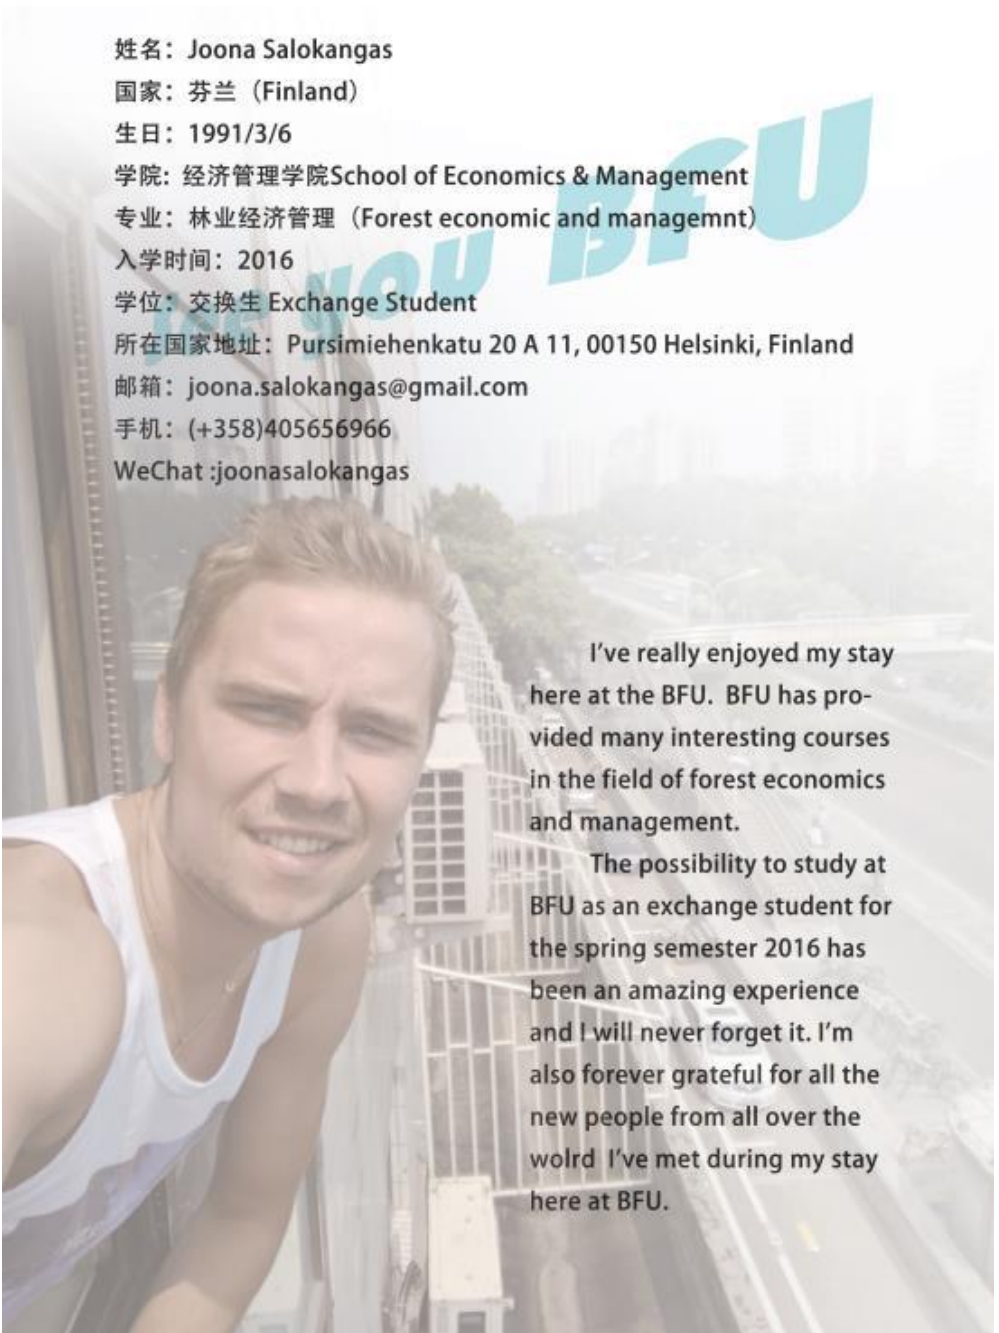

I am thankful for all the teachers who were helpful during my programs. I am also thankful to all the friends I made in BFU for their help and support. It was amazing!

My time here is coming to an end and it is time to leave. I feel sad but it is also time to move on and to have another experience. I will for sure miss the life I spent in BFU.

作为一名水土保持专业的高进生，我已经来中国两年了。我在中国的这段时间真切的看到了：为实现“中国梦”中国人民努力奋斗，并领略了许多的中国的文化与历史。我在贵大学学习，贵大学在中国水土保持方面得到的成就和人才培养与研究方面的水平很高。我感谢我的汉语老师：黄琳、黄鹤、李凝，我的导师：丁国栋教授、以及所有的留学生办公室老师等等的关心、厚情、支持。相信在中国的这段记忆将深植在心中，成为一段美好的回忆。

I've really enjoyed my stay here at the BFU. BFU has provided many interesting courses in the field of forest economics and management.

The possibility to study at BFU as an exchange student for the spring semester 2016 has been an amazing experience and I will never forget it. I'm also forever grateful for all the new people from all over the world I've met during my stay here at BFU.

A man with a beard and glasses, wearing a green and blue polo shirt, is looking down at a plant in a garden. The background is a lush green garden with a waterfall. The text is overlaid on the image.

BFU is one of the best Universities. Everybody in international office speaks English (I know some other universities which don't) Teachers are all kind and hardworking to help students in both learning language and solving their other problems. International office always replies patiently and helps me with my problems.
I definitely recommend this university to any of my friends who want to learn Chinese.

foe accomplish a goal.**

在林业大学度过了短暂的一年，无法忘怀学校里郁郁葱葱的、随着季节变化的树木和美丽的花。

同学们无比的亲切，也要感谢我的老师们，她们的教学如此的认真，让我在这一年获益匪浅。

感谢林业大学，我会想你的！

BFU made part of my memory almost one year I lived in Beijing Forestry University. Before I had been living in Beijing and never heard about this university however I was lived near to it. When I decided to study Chinese Language in Beijing, I was thinking of study in Beijing Language and Culture University or Qinghua University.

Once one of my friend suggested me to once visit this university and ask about conditions. When I arrived first time at the main gate it was good impression on me then I was searching international office so I asked the first foreigner I saw and he was a senior student rushing to attend Chinese class. we talked about Chinese Classes a little bit and he guided me to international building. Upon I arrived in International Office the behavior of staff impressed me specially when I compared with Qinghua and BLCU. They were really welcome and my admission process which lasted several weeks in other university only took less than an hour in BFU! When I told my friends that my admission procedure took only one hour they could not believe! then I made my decision and chose to study here. And now I don't regret I had a nice time here and found good friends and teachers and my Chinese skills improved a lot.
